Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 21 April 2006.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

DETAILED ACTION

Amendment

The amendment file 21 April 2006 has been entered into this application. As to applicant statement regarding including new claims 8 and 9, on page 9, under dependent claims. There are newly included claims 8 and 9 in the amendments to the claims file 21 April 2006, the amendments to the claims show original claim 8 and currently amended claim 9 are filed.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1 and 2, are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claims contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. In claims 1 and 2, "a second detecting step for detecting error information related to a position of the pupil plane and a third detecting step for detecting wavefront aberration of the optical system on the basis of the imaging position of each light beam upon the pupil plane and of the error information" raises the issue of new matter, for the disclosure demonstrate "a second detecting step for detecting error information related to a passage position as each light beam passes through the pupil plane and a third detecting step for detecting wavefront aberration of the optical system on the basis of the imaging position of each light beam upon the pupil plane and of the error information related to the passage position of each light beam on the pupil plane".

Claims 3, 9, 15 and 16, are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claims contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. In claims 3, 9, 15 and 16, "a second detecting step for detecting error information related to a position of the pupil plane" raises the issue of new matter, for the

disclosure demonstrate "a second detecting step for detecting error information related to a passage position as each light beam passes through the pupil plane".

Allowable Subject Matter

Claims 1-16 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, first paragraph, set forth in this Office action.

As to claims 1 and 2, the prior art of record, taken alone or in combination, fails to disclose or render obvious a second detecting step for detecting error information related to a position of the pupil plane and a third detecting step for detecting wavefront aberration of the optical system on the basis of the imaging position of each light beam upon the pupil plane and of the error information, in combination with the rest of the limitations of the claim.

As to claims 3, 9, 15 and 16, the prior art of record, taken alone or in combination, fails to disclose or render obvious a second detecting step for detecting error information related to a position of the pupil plane, in combination with the rest of the limitations of the claim. Claims 4-8 and 10-14 are allowable by virtue of their dependency.

Additional Prior Art

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The references listed in the attached form PTO-892 teach of other prior art projection exposure apparatus, and device manufacturing method that may anticipate or obviate the claims of the applicant's invention.

Response to Arguments

Applicant's arguments/remarks, see pages 8-10, filed 21 April 2006, with respect to the rejection(s) of claim(s) 1-16 under 35 U.S.C. 102(b) have been fully considered and are persuasive. Therefore, the rejection has been withdrawn. However, upon further consideration, a new ground(s) of rejection is made in view of claim amendment.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
